

Did You Know There Is ABORTED FETAL TISSUE IN VACCINES?

**Hep A/ Hep B
(Twinrix)**

Formalin, yeast protein, aluminum phosphate, aluminum hydroxide, phosphate buffer, polysorbate 20, amino acids, **MRC-5 Cells**, neomycin sulfate, **Human Diploid Cells**

Hep A (Havrix)

Aluminum hydroxide, amino acid supplement, formalin polysorbate 20, neomycin sulfate, **MRC-5 Cellular Proteins**

MMR (MMR-II)

Medium 199, min. essential medium, chick embryo cell structure, neomycin, sorbital, hydrolyzed gelatin, phosphate, **WI-38 Cells**
Human Diploid Lung Fibroblasts, **Recombinant Human Albumin**

**Varicella
(Varivax)**

Sucrose, phosphate, glutamate, gelatin, msg, sodium phosphate, potassium phosphate, potassium chloride, fetal bovine serum, EDTA
MRC-5 cells: DNA & Protein, neomycin, **Human Diploid Cells (WI-38)**, embryonic guinea pig cells, **Human Embryonic Lung Cultures**

**Zoster / Shingles
(Zostavax)**

Sucrose, hydrolyzed porcine gelatin, sodium phosphate dibasic, msg, potassium phosphate monobasic, potassium, chloride, bovine calf serum, **Residual Components of MRC-5 Cells: DNA & Protein**
